ORGANIZE	Club Innovación Acuícola de Chile

OBJECTIVE

INNAQUA aims to encourage innovation for efficient and sustainable aquaculture, addressing current and future opportunities and challenges.

DESCRIPTION

The Club Innovación Acuícola de Chile is organizing the THIRD edition of the biennial international event, which began in 2021.

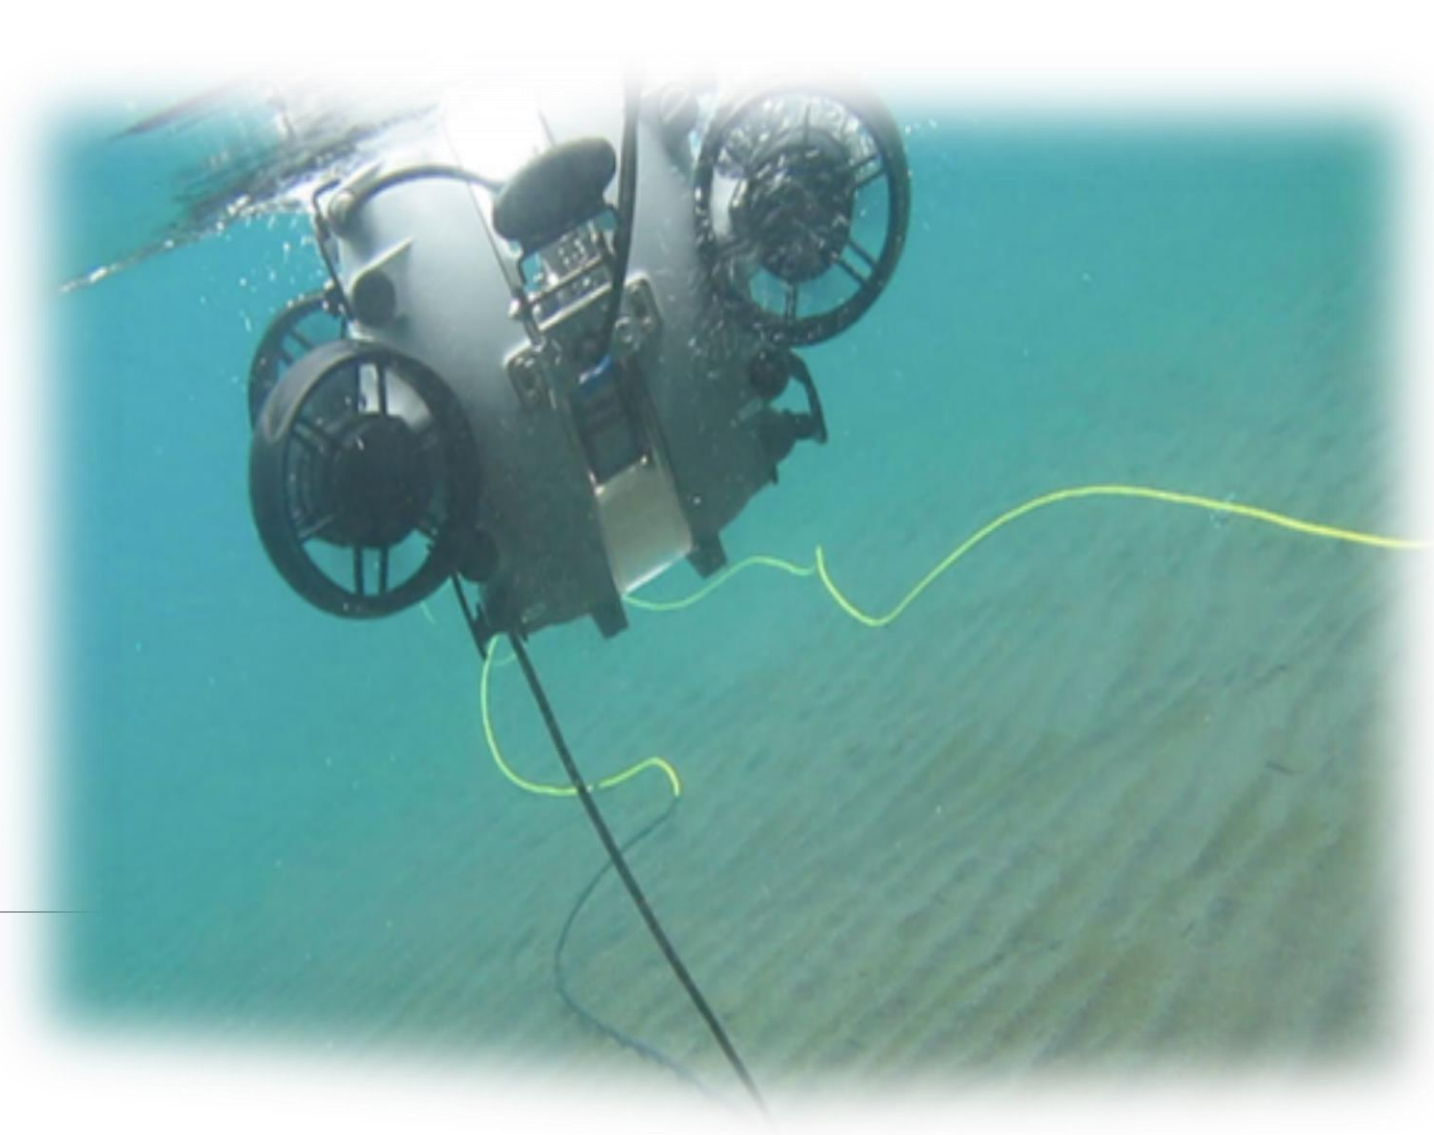

The event will take place in person, with the central conference, an Expo - InnAqua featuring selected stands and posters, as well as a workshop by the International Aquaculture Innovation Alliance.

The success of the first two versions, with high participation and evaluation from attendees, speakers and sponsors, predicts a great meeting in 2025, with representatives from private, public, academic, social, and international sectors organizations.

September 2 - 4
Puerto Varas, Chile

Welcome!
